

**TEXAS VEIN and COSMETIC SPECIALISTS**

**CO-PAYMENT POLICY**

To Our Managed Care Patients

To reduce healthcare cost we have entered into a contract with your insurance plan to provide services to you at a significantly discounted rate. Under your contract, your plan has also required that you pay a portion of the discounted amount they pay us at the time services are rendered to you. This amount is called your co-payment. Your co-payment is not paid in addition to but instead is subtracted from the fee your insurance company pays us. Therefore, it has become necessary for us to adopt a policy to collect your co-payment at the time services are rendered. We are not able to bill you for your co-payment, as this further increases our expenses and this is also in violation with your managed care plan requirements.
